

# DID YOU KNOW...

**...that a child can drown in less than two inches of water!**

No matter how shallow or safe some may seem; swimming pools are the **number one** cause of child deaths in Florida - more than twice the national average.

Never leave your child alone near water for even a minute. Whether it's a phone call or someone at the door; **always take your child with you - every second counts!**

For more information and tips on water safety, call 813-229-2884...**Because Every Child is a Dream Worth Growing.**
