

A BABY CAN DROWN IN LESS THAN TWO INCHES OF WATER

Hi, I'm Nick Cox – Regional Director for the Department of Children and Families and Children's Board member.

Last summer, both organizations teamed up with the Healthy Start Coalition to lead a safety and awareness campaign aimed at preventing the many child injuries and deaths that occur in our community each and every year.

From selecting a safe caregiver, to putting babies on their backs to sleep, to the water safety message you see here today; **we're working hard to educate Hillsborough County families about safety hazards that could easily be overlooked, forgotten or just not known.**

On behalf of the Children's Board and our partner agencies, I'd like to thank you for your commitment to our community's children.

If you'd like to learn more about this all-important safety and awareness initiative, or for information and tips on water safety, call us today at 813-229-2884 or visit:
