

Children's Board Funded Provider Demographic Survey Summary, FY 2011

The Children's Board collected the following demographic data concerning gender, race and ethnicity from the agencies and programs receiving CBHC funding in Fiscal Year 2011. An agency representative provided data on the Board, management and staff of their agency. Each agency was also responsible for reporting demographic information on their program staff and for the data related to each of its sub-contractors. Program specific demographic information is published in a separate report available upon request.

The demographic data presented below is based on the agency's self-reported data. All 74 funded agencies responded to the survey however several agencies submitted multiple surveys with different information that may have affected the summary results below. Additionally, some agencies did not submit complete information in all categories therefore a "no response" category was added. The demographic composition of Hillsborough County as reported in the 2010 census has been included however the "no response" category in the agency data prevents direct comparisons from being made.

	Board Members #	Board Members %		Executive / Management #	Executive / Management %		Agency Staff #	Agency Staff %		Hillsborough County %
Male	577	55%		695	25%		5,964	25%		49%
Female	467	46%		1,085	39%		12,118	50%		51%
Refused	0	0%		0	0%		0	0%		--
No Response	3	<1%		1,001	36%		6,093	25%		--
White	827	79%		1,368	49%		10,829	45%		75%
Black	193	18%		226	8%		3,257	13%		15%
Other	11	1%		65	2%		785	3%		10%
