**Serving Children &
Families in Hillsborough
County for over 30 Years!**

2019 Annual Report

Megan Proulx Dempsey
Board Chair

Message from our Board Chair

It continues to be an honor to serve as the Chair of the Children's Board of Hillsborough County. In this year's Annual Report, we highlight the countless programs and services that are designed to make a lasting impact on the quality of life for children and families in Hillsborough County. We have expanded our scope of services to provide more accessibility to the residents of Hillsborough County. As a board, we make conscious and strategic decisions to bring outstanding and equitable resources to all parts of our diverse community. We remain steadfast to our commitment to investing in our most precious gift, our children.

I hope this report helps you to understand that the Children's Board, in conjunction with the community partners, works tirelessly to address the needs of the overall health and well-being of our families.

Message from our Executive Director

It has been an exciting 2019 in the early learning community celebrating the enormous success of our pilot project with Glazer Children's Museum and the Learn & Play Tampa Bay program. This program helps prepare children to be ready to enter Kindergarten while building a community of parents and caregivers around Hillsborough County that support each other and the educational success of their children.

The Doretha Wynn Edgecomb Children's Board Family Resource Center will open in Temple Terrace and expand the services that speak directly to the Children's Board mission. Universal services such as developmental play groups, screenings, health and safety education, and well-child visits will now be more accessible to the residents of Temple Terrace and the surrounding areas.

We continue to see growth in the inter-generational supports available for caregivers of children in Hillsborough County. Our funded partners provide ongoing training for caregivers to increase their confidence and ability to meet their children's developmental and educational needs. The Children's Board builds on the strength of our county's diversity to make Hillsborough County the best place in the country to raise healthy, happy, and well-adjusted children.

ABOUT THE CHILDREN'S BOARD

Vision

It is our vision that Hillsborough County will be recognized as one of the top places in the nation to raise children.

Mission Statement

The Children's Board invests in partnerships and quality programs to support the success of all children and families in Hillsborough County.

Funding Structure

The Children's Board invests dollars through a competitive grant award process to address four strategic focus areas:

- Children are Healthy and Safe
- Children are Ready to Learn and Succeed
- Children are Developmentally on Track
- Family Support

Level 1 Investment

Awards of more than \$600,000

Contributes to 6-8 outcomes

Works in large community systems of care

Promotes universal access to services in geographic region(s) or countywide

Level 2 Uniting

Awards between \$75,000 - \$600,000

Contributes to 4-6 outcomes

Provides services in regions or neighborhoods

Promotes universal access to services in geographic region(s) or countywide

Level 3 Leading

Awards between \$5,000 - \$75,000

Contributes to at least 3 outcomes

Specialized service delivery models

Targets specific community or population needs

Level 4 Technical Assistance

Awards up to \$5,000

Reports on project deliverables

Targets agencies with budgets less than \$2 million

Supports capacity building

PERFORMANCE MEASUREMENT

In 2019, the Children's Board and our partner agencies served more than **183,000** children and their family members residing in Hillsborough County. Over **\$32 million** was invested in **113 programs** to address the needs of our community.

The Children's Board uses a performance measurement approach to evaluate the collective impact and results of our funded programs. We assess program effectiveness on an annual basis to monitor participant gains and program adherence to model fidelity. To make sure that our community receives high-quality services, the Children's Board promotes the use of best practices and evidence-based programming. We use metrics that help us gauge the improvements achieved by the children and families participating in the programs compared to expected research-based targets. The results of our performance evaluation efforts are presented in this report for Fiscal Year 2019.

10,243

Number of Records

OUTCOME RESULTS

In Fiscal Year 2019, **59 funded programs** worked towards achieving a total of **55 outcomes** across our **4 focus areas**:

- **Children are Healthy and Safe**
- **Children are Developmentally on Track**
- **Children are Ready to Learn and Succeed**
- **Family Support**

A summary of the collective performance is shown in the following pages. Outcomes that met or surpassed the expected benchmark target are shown with plus sign.

+ 100%

Highlights of some of the outcomes are presented by focus area, including performance trends over time.

HEALTHY AND SAFE

The primary goal of Children are Healthy and Safe is to improve overall community health by supporting pregnant women to seek prenatal care, postpartum support, and care for children as they grow.

+ Outcome met or exceeded benchmark

PREGNANT WOMEN

- + 92% attend prenatal care visits
- + 96% receive prenatal care by 20 weeks gestation
- 84% have improved breastfeeding attitudes

PARENTS

- + 98% initiating breastfeeding
- + 82% sustaining breastfeeding
- + 92% exhibiting fewer depressive symptoms

DEVELOPMENTALLY ON TRACK

The goal of Children are Developmentally on Track is early identification of children with special needs through developmental screening and referral linkages.

PARENTS / CAREGIVERS

- + 94% demonstrate behavior consistent with age-appropriate development
- + 92% support their child's healthy development

READY TO LEARN

The primary goal of Children are Ready to Learn and Succeed is to support children who are getting ready to enter Kindergarten and provide additional resources for students throughout their school years.

CHILDREN

- + 98% ready for kindergarten
- 75% read 4 times a week
- 67% regularly attend school
- 76% with increased motivation to learn
- + 91% with inclusive early care placement
- + 88% with improved school readiness
- + 80% progress toward academic success
- + 98% with on-time grade promotion
- + 88% demonstrate positive social behaviors

FAMILY SUPPORT

The primary goal of Family Support is to assist families in attaining services that increase formal and informal supports to improve their overall stability and security. Children are supported by their caregivers, and caregivers receive support.

FAMILY MEMBERS

- + 95% with increased concrete supports
- + 96% with increased social supports
- + 86% with improved mental well-being

BABIES

+ 98%

born at healthy weight

+ 93%

born at full term

+ 98%

born substance-free

CHILDREN

+ 85%

at healthy height and weight

+ 71%

with secure attachments

+ 99%

attending well-child visits

82%

at reduced risk of unintentional injury

+ 92%

with decreased vulnerability to vaccine-preventable diseases

FAMILY MEMBERS

+ 96%

83%

linked with vision assessment

+ 88%

with improved social-emotional competence

YOUTH

84% with improved skills

+ 98% with increased educational aspirations

68% with improved self-esteem

+ 97% with on-time grade promotion or graduation

37% with increased school connection

84% with positive relationships with parents / adults

66% with improved positive social behavior

PROFESSIONALS

+ 91% with improved early literacy skills

+ 95% with knowledge of developmentally appropriate practices

+ 91% demonstrate developmentally appropriate practices

+ 99% Early education programs with progress towards high quality

FAMILIES

+ 97%

with increased social-emotional knowledge

PARENTS / CAREGIVERS

+ 99% with increased knowledge of community resources

+ 86% reporting reduced stress

+ 92% with improved family well-being

+ 96% with increased parenting skills

+ 89% involved in their child's development / education

+ 100% with no verified reports of maltreatment

CHILDREN ARE HEALTHY AND SAFE

HEALTHY AND SAFE

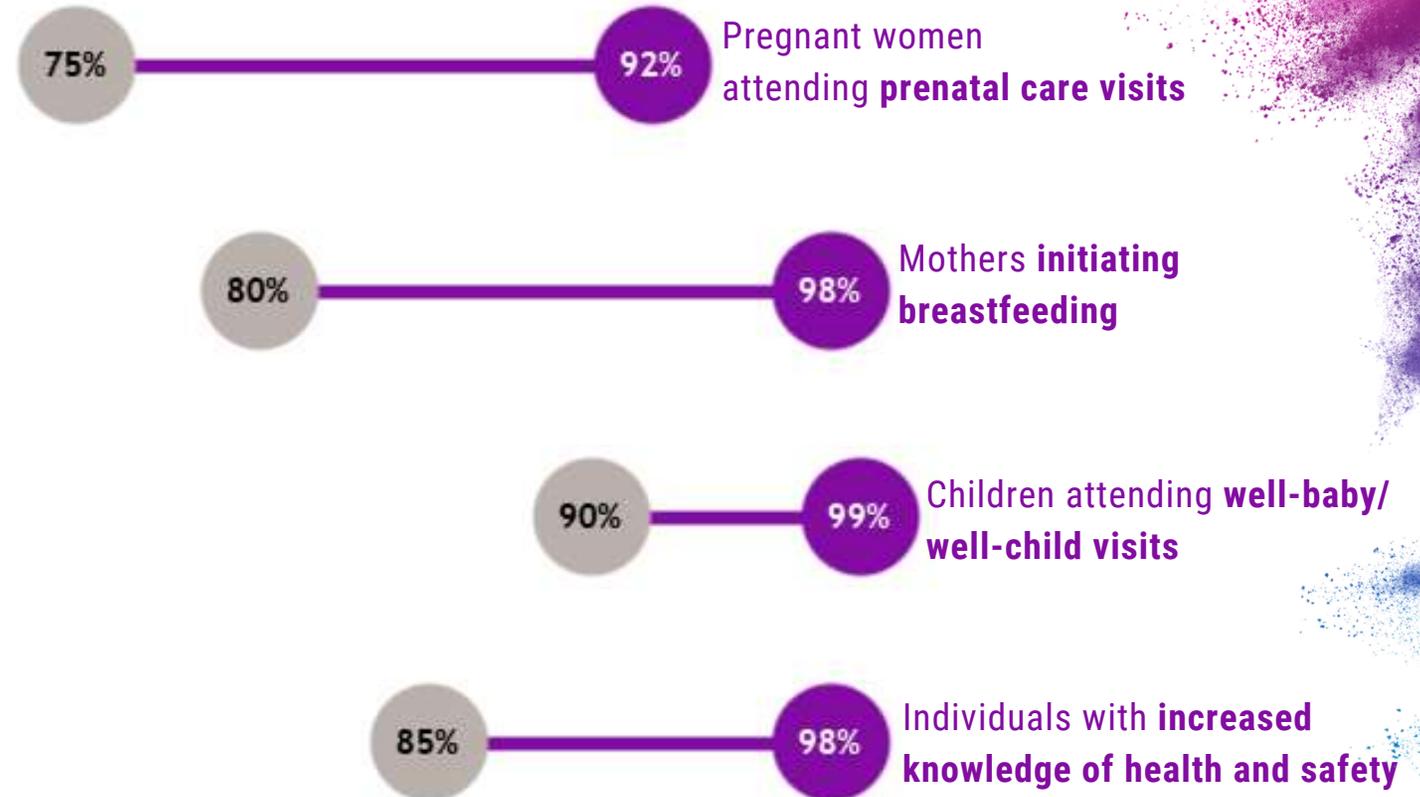

Performance Highlights

The Children's Board invests in high-quality programs that support Hillsborough County families in achieving safe and healthy environments for their children. From supporting pregnant women to providing services that enhance children's physical and emotional well-being, our programs strive to reduce children's exposure to adverse experiences that can lead to toxic stress and lifelong negative health outcomes. Families and professionals caring for young children receive education to keep them well-informed on topics such as newborn care, safe sleep practices, CPR and first aid, and the importance of immunizations and well-child visits to give children the best start in life. As children grow, our programs help them learn about nutrition and safety practices to maintain their overall health including eye safety and dental hygiene, and how to stay safe in their homes and neighborhoods. The graph below shows some of the results gained by participants served in Fiscal Year 2019.

Target

Performance

HEALTHY AND SAFE

By focusing on improving maternal health and increasing pregnant women's access to early prenatal care, our programs achieved positive effects on babies' birth weight outcomes in FY 2019. A higher percentage of babies born to mothers served in our funded programs were born at a healthy weight (5.5 pounds or more) compared to babies born in the state of Florida.

HOW DO WE MEASURE UP?

98% Babies born in our funded programs in Hillsborough County at 5.5 lbs or more

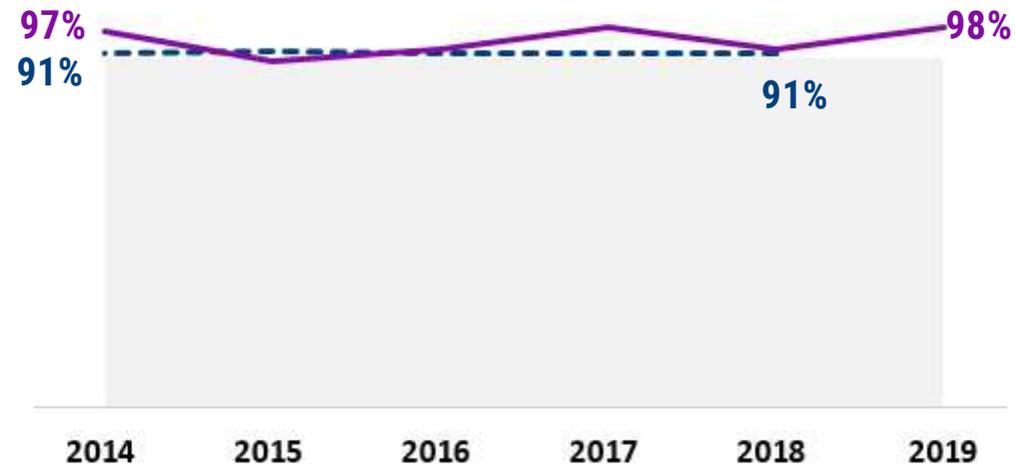

91% Babies born in Florida at 5.5 lbs or more in 2018¹

The Children's Board funded programs educated pregnant women on topics relevant to maintaining healthy pregnancies and helped connect women with medical providers to ensure regular attendance at prenatal care visits. In FY 2019, results showed that 96% of more than 400 women received early prenatal care by at least 20 weeks gestation and 92% of 1,131 women maintained adequate or better attendance at prenatal visits prescribed by their medical provider.

ANNUAL TRENDS

The percentage of **babies born at healthy birth-weight for more than 1,100 babies in our programs** has surpassed **Florida's reported statistics for all but one year during the time period shown.**

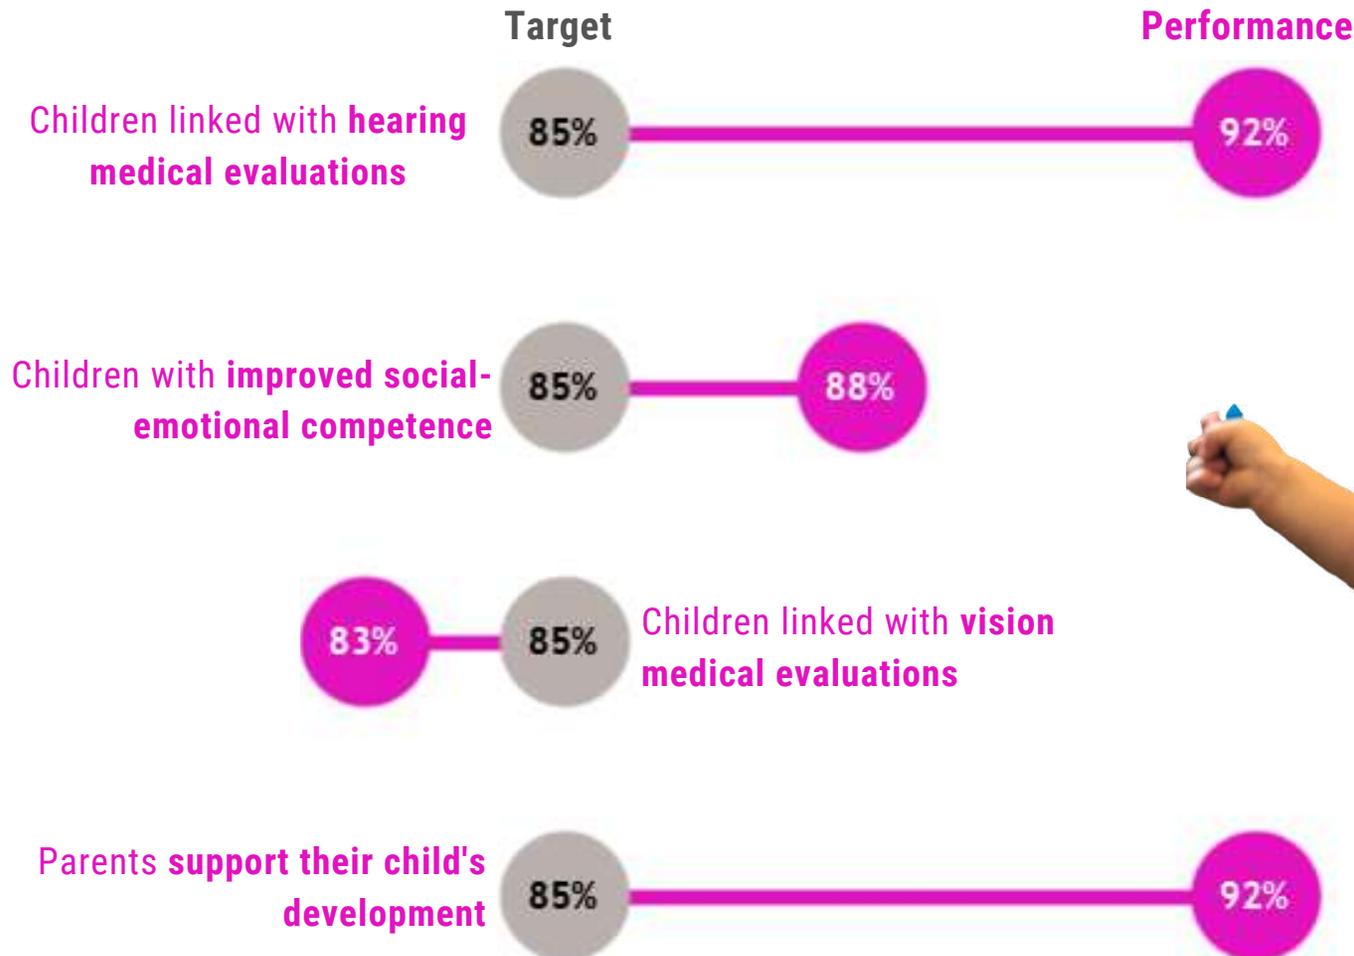

CHILDREN ARE DEVELOPMENTALLY ON TRACK

DEVELOPMENTALLY ON TRACK

Performance Highlights

During infancy and early childhood, children grow and change so rapidly as there are many skills that need to be learned. While each child develops at their own pace, there are developmental milestones that most children will typically achieve by specific age ranges. Skills such as smiling, babbling, self-feeding, walking, and taking turns, tend to emerge sequentially, however, some children may not learn these skills at the same rate or within the same time frame as their peers. Our programs support families to understand their own child's developmental growth and how they can help them continue to build new skills.

DEVELOPMENTALLY ON TRACK

Developmental screenings educate families and practitioners in the early identification of delays in development or medical needs. Our funded programs provide universal access to developmental screening services that support the early identification of developmental delays. When additional supports are needed, our programs educate family members and facilitate linkages to age-appropriate early intervention systems of care in the community. As a result of our investments in community-wide developmental screening services, 5,412 children, including 5,106 children through age 4, received a developmental screening in FY 2019.

HOW DO WE MEASURE UP?

20% Infants and toddlers received a developmental screening in Florida, according to the latest data.²

6% Hillsborough County children birth to age 4 receiving a developmental screening by our funded programs.³

ANNUAL TRENDS

Our funded programs provide ongoing developmental monitoring to **children from birth to age 5**. More than **15,000 children** have received a developmental screening from 2017 to 2019.

CHILDREN ARE
READY TO LEARN AND SUCCEED

READY TO LEARN AND SUCCEED

Performance Highlights

The Children's Board focus area of Children are Ready to Learn and Succeed is dedicated to providing supports to children and early childhood educators that promote early learning and skill development to foster success in elementary school and beyond. Our funded programs provide research-based training, on-site coaching, and modeling for early childhood educators and families that help them build children's early reading, math, and social-emotional skills. Increases in these areas help ease the transition into primary school settings and ensure continued educational success. The graph below shows some of the early childhood results gained by participants served in Fiscal Year 2019.

READY TO LEARN AND SUCCEED

Performance Highlights

The Children's Board commitment to investing in early childhood programs and services resulted in positive outcomes for our community as demonstrated by consistently high levels of performance in this area over multiple years. Children receiving services in the year prior to Kindergarten showed higher rates of Kindergarten readiness than their peers in the state of Florida.

HOW DO WE MEASURE UP?

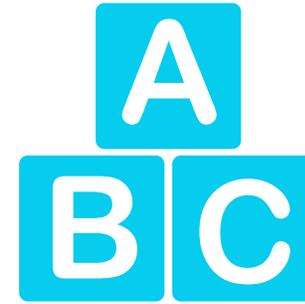

98% Children ready for Kindergarten in our programs

53% Children ready for Kindergarten in the state of Florida⁴

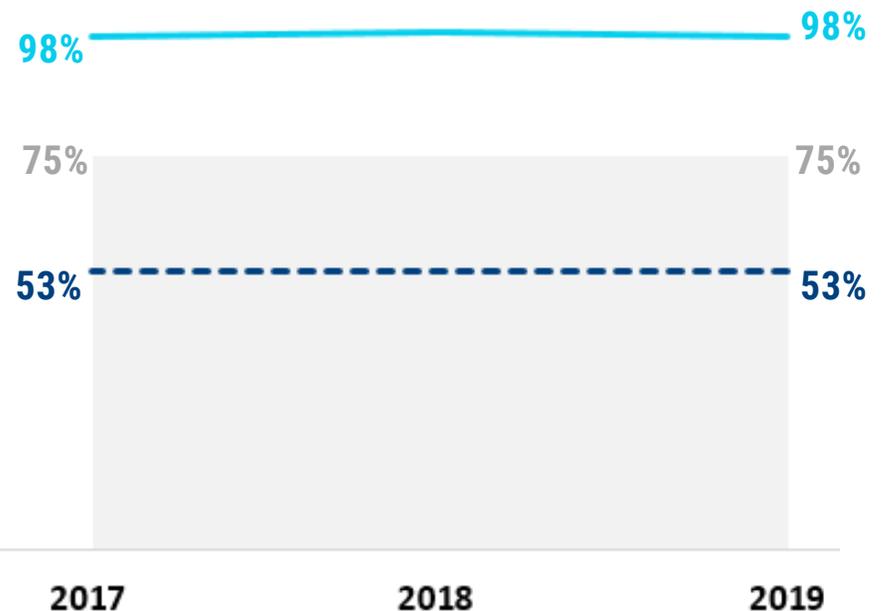

In addition, more than 3,200 children measured by six of our funded partners, demonstrated increased school readiness skills during the last three years.

ANNUAL TRENDS

For the last three years, approximately **400 children** measured on this outcome have surpassed the performance benchmark for **Kindergarten readiness** as well as the levels reported for Florida.

READY TO LEARN AND SUCCEED

Performance Highlights

Other results in our Ready to Learn area are focused on promoting continued success for children and youth during the school-age years. Our programs provide a variety of educational supports coupled with experiences that enhance children's overall academic performance. Examples of these enriching activities include mentoring, homework assistance, social skills training, and mindfulness activities such as self-regulation and yoga. Children and youth are also provided leadership opportunities through community service projects and presentations on pathways to college and careers.

FAMILY SUPPORT

FAMILY SUPPORT

Performance Highlights

Supportive families provide children with stable and nurturing environments that promote learning and the development of healthy relationships. Families are children's first teachers and greatly influence how they experience the world and develop a sense of belonging. For some families, stress, isolation, and other challenges may limit their ability to provide secure environments and positive interactions that help children to thrive. The Children's Board programs work with families to mitigate these challenges.

Target

Performance

96%

Individuals with increased **social supports**

FAMILY SUPPORT

Family support provides parents and caregivers with education and resources that help them balance the many demands of daily life while raising their children. Our funded programs help families learn about the resources available in the community, assist them in setting goals, strengthen their resiliency, increase social networks and link them to needed supports to improve the stability and well-being of their family.

HOW DO WE MEASURE UP?

74,440

Family members in Florida that received Temporary Assistance for Needy Families (TANF).⁵

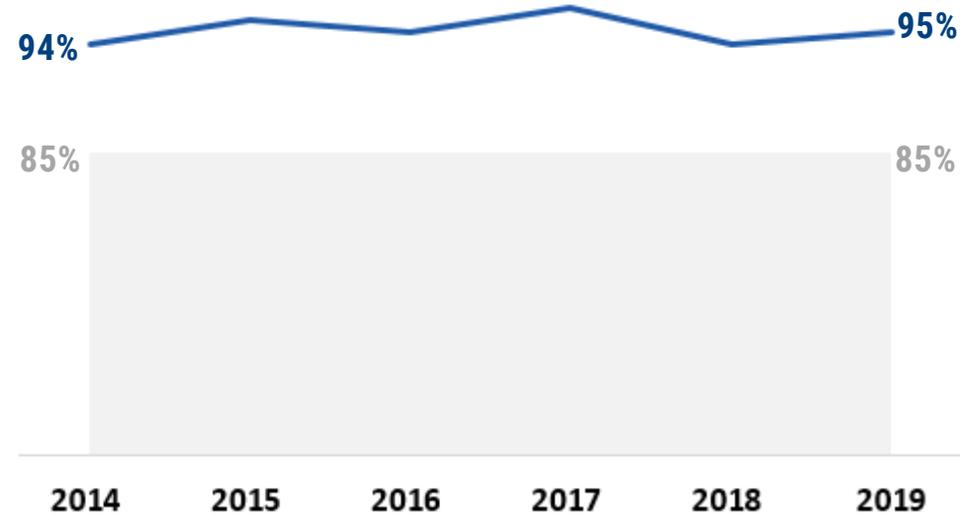

5,237

Individuals linked with resources by our funded programs in Hillsborough County.

ANNUAL TRENDS

Our funded programs provide ongoing support and resources that help build upon our families' futures. As a result, for the last six years, our **programs exceeded** the performance benchmark for providing families with **concrete supports and resources**.

COMMUNITY INVESTMENTS

A young child with curly hair, wearing a red and black plaid shirt, is looking out from a play tent. The tent is made of a light-colored fabric with pink and blue stripes. The child is surrounded by vibrant, colorful powder splatters in shades of blue, purple, and pink, creating a playful and artistic atmosphere.

INVESTMENT IN EARLY CHILDHOOD LEARNING

Over many years, key stakeholders in our community have worked together to build an early learning system that supports Hillsborough County children. Through collaborations with multiple early childhood partners, this system provides unique opportunities for working together to achieve the common goal of each child reaching their fullest potential. Coordinated partnership efforts reduce duplication of services, provide a network of support for teachers, and increase families' access to a continuum of services and resources. Continuous investments in research-based programs and best practices lead to improved services and positive outcomes for the children and their families in our county.

PROGRAMS

Support children's learning and overall development

PARTNERSHIPS

Seamless connections between agencies making navigating services family friendly.

RESEARCH

Research based programs and interventions offer high-quality support

FAMILIES

CHILDREN

are ready for school

Early Childhood System Services

Developmental Screening and Monitoring

- Screenings provide insight into children's development under each domain (vision, hearing, social-emotional, cognitive, language, fine and gross motor) to monitor developmental milestones.
- Provide resources to address special needs and promote appropriate activities.

Family Engagement

- Stimulates children's interests and learning.
- Positive interactions between children and their caregivers promote trust.
- Creates lasting bonds between child and caregivers.

Access to High Quality Education

- Training, coaching and ongoing support to early childhood educators and program directors to implement best practices at family childcare homes and child care centers.

Early Learning Activities

- Children develop early language skills, problem solving, reading skills and critical thinking through participation in play groups.
- Home-based interventions and individualized instruction.

Social-Emotional Learning

- Children are taught to express their emotions in a healthy way to develop the skills necessary to work in groups or classroom settings and teachers use positive feedback to reinforce desired behaviors.

COMMUNITY ACCESS TO OUR FACILITIES

The Children's Board Conference Center was established in May 2004, offering access to state-of-the-art meeting space at no cost to the community at-large. Our responsive facilities team collaborates with organizations to plan and tailor facility resources to meet the groups' needs including access to computer technology, audiovisual aids, and public address system.

Number of visitors accessing the Children's Board facilities

1,269

Reservations made for meeting rooms in the conference center

92%

Meeting attendees reported high levels of satisfaction with the Children's Board

"Thoroughly enjoy utilizing the Children's Board facilities when we have meetings. It is clean, well organized and the staff is always knowledgeable and friendly."

SOCIAL ENTERPRISE AWARDS

The Children's Board held our 14th Annual Social Enterprise Competition. The competition encourages non-profit organizations to develop social enterprise ventures that result in an earned income business strategy that addresses a community need. In FY 2019, two prizes were awarded:

First Prize - \$25,000 to AMROC Fab Lab to provide project-based engineering education and training.

Second Prize - \$15,000 to CANBOULAY to provide art exhibitions, visual and performing arts classes and events, meeting and co-working space.

ADMINISTRATIVE SERVICES ORGANIZATION

The Administrative Service Organization (ASO) is a project created and operated by the Children's Board of Hillsborough County to manage flexible funds and meet the needs of children and families. Implemented in 2003 to support family-directed care, the ASO promotes a wraparound approach in which families identify their strengths, needs, goals, and service providers through a family support plan. As a payment of last resort, flexible funds managed by the ASO can be used to provide supports and services with qualified community providers.

With such a wide variety of services offered in the ASO, rarely do I come across a family I'm not able to help. Seeing parents walk out with a sense of help and holding their head up higher than when they came in - it's PRICELESS! - ASO Case Manager

SUMMER SERVICES

The Children's Board partnered with Hillsborough County Board of County Commissioners to provide funding to increase families' access to high-quality summer programming for youth ages 6 -14. The summer grants provide enriching activities and specialized services at pre-existing summer programs across the county. As a result, more than 700 youth participated in summer programming in 2019.

SUMMER QUICK FACTS

235 Hours of STEM programming

653 Hours of physical activity

359 Hours of reading

119 Hours of journaling

SUMMER PASSPORTS

In response to community input, our Board developed a new funding initiative called "Summer Passports". Parents reported interest in scholarships for youth to attend specialized summer programming at four community locations including Glazer Children's Museum, The Florida Aquarium, Museum of Science and Industry (MOSI), and Straz Center for the Performing Arts Patel Conservatory. As a result of this initiative, 128 youth participated in 1-2 weeks of intensive summer camp experiences at these locations.

LOOKING FORWARD

The year 2020 will be a planning year for the Children's Board. Every three years we conduct town hall meetings, survey our citizens, review data from systems such as health care and education, analyze demographic shifts and growth patterns, and much more to determine the needs of the community. From that data, we develop competitive Requests for Proposals for programming to support our efforts in meeting the needs, both large and small, of Hillsborough County's children and families.

The Children's Board will also be re-envisioning the services offered by the Family Resource Centers. Members were surveyed concerning the value of the centers, the programming they find most beneficial, the most convenient hours and days of operation, interest in new and re-imagined services, and the integration of hybrid uses of the centers. The year 2020 will be an exciting time for the Children's Board and Hillsborough County, so stay informed and engaged!
